*Allowable Subject Matter*

1. **Claims 51-94** are allowed.

The following is an examiner's statement of reasons for allowance:

As to **claim 51**, the prior art of record, taken alone or in combination, fails to disclose or render obvious in an apparatus for measuring spectral information of light from at least one object "at least a first back reflecting surface for reflecting light received from the at least one entrance aperture to the at least one front reflecting surface" and "the first diffractive element being arranged to disperse diverging light received from the at least one entrance aperture," and the particular light detector unit arranged to receive the dispersed light, in combination with the rest of the limitations of **claims 51-87**.

As to **claim 88**, the prior art of record, taken alone or in combination, fails to disclose or render obvious in an apparatus for measuring spectral information of light from at least one object "at least a first back reflecting surface for reflecting light received from the at least one input means to the at least one front reflecting surface" and "the first diffractive means being arranged to disperse diverging light received from the at least one input means" and the particular light detecting means for detecting the dispersed divergent light, in combination with the rest of the limitations of **claim 88**.

As to **claim 89**, the prior art of record, taken alone or in combination, fails to disclose or render obvious in a method of measuring spectral information of light from an object "propagating divergent signal light from the entrance aperture to a diffractive element on a second side of the transparent body; diffracting the divergent signal light with the diffractive element into divergent separated wavelength components; reflectively focusing the divergent,

separated wavelength components to an exit face using a focusing reflector on the transparent body” and the particular detecting step, in combination with the rest of the limitations of **claims 89-94**.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

### ***Response to Arguments***

2. Applicant’s arguments, see Remarks, filed 15 September 2004, with respect to the rejection of the **claims 51-70, 73, 74, 80-82, 84-86, 89, and 92-93** under 35 U.S.C. 103(a) and **claim 88** under 35 U.S.C. 102(b) have been fully considered and are persuasive. Due to the persuasiveness of the arguments and due to the amendment to claim 88 the rejections under 35 U.S.C. 103(a) and 102(b) of the claims have been withdrawn.

### ***Fax/Telephone Numbers***

If the applicant wishes to send a fax dealing with either a proposed amendment or a discussion with a phone interview, then the fax should:

- 1) Contain either a statement “DRAFT” or “PROPOSED AMENDMENT” on the fax cover sheet; and
- 2) Should be unsigned by the attorney or agent.

This will ensure that it will not be entered into the case and will be forwarded to the examiner as quickly as possible.
